Title: Use of Compositions Comprising of)	
Oleonic Acid for the Preparation of a)	
Medicament for the Treatment of)	
Hypersensitivity and Hyperactivity)	<u>Date: July 11, 2011</u>

INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. § 1.97(b)

Pursuant to 37 C.F.R. 1.56 and 1.97(b), Applicants request that the Examiner consider this Information Disclosure Statement and the documents listed on the attached Form PTO-1449. To the best of the undersigned's knowledge, this Information Disclosure Statement is being filed before the mailing date of a first Office Action on the merits for the above-referenced application. Accordingly, Applicants do not believe a fee is due for filing this Information Disclosure Statement.

An office action has issued in the corresponding Japanese patent application. A partial English language translation of the Japanese office action is provided for the Examiner's consideration, and shows a listing of 7 cited documents. Documents 5 and 6 as listed on the attached PTO-1449 are the corresponding English language equivalents of documents 1 and 2, respectively. Document 7 was filed by Applicants as part of the response to the Japanese office action. Document 8 represents a partial English language translation of the aforementioned Japanese office action.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." Applicants reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

Respectfully Submitted,
Morgan Lewis & Bockius LLP
